

## ***Residential Renovation & Construction Program***

The Residential Renovation & Construction (RRAC) program is designed to provide two areas of skills development for participants. First, provide the basic skills needed for entry-level work in residential or commercial construction. Second, provide the skills and knowledge needed to work at maintaining and renovating housing.

### Academic Requirements:

- Math 10; Science 10; High school transcripts; Social Insurance Number; Résumé & Cover Letter

### Non-Academic Requirements/Industry Requirements:

- Good eyesight, hearing, manual dexterity, and physical mobility.
- Ability to work at heights and possibly in confined spaces.

To apply please submit a Cover Letter & Qualified Applicants will receive:
